

First International Symposium on Cancer in Persons with Intellectual Disability

Welcome message

We are pleased to announce that the First international symposium on cancer in people with intellectual disability co-organized by the Cancéropôle Grand Sud Ouest and Oncodefi will be held in Montpellier, France, February 5-7 2014.

Professionals supporting individuals with intellectual disability and professionals working on cancer share and must solve challenging situations and problems. This meeting offers an excellent opportunity to facilitate collaborative problem-solving and opportunities to explore how to advance research and treatment at the intersection of these fields. The symposium is also a unique opportunity for individuals who are less familiar with this subject to hear speakers and exchange ideas with leading teams in this area.

You are invited to participate and encouraged to contribute by sharing your experience through abstracts.

We look forward to see you in Montpellier

With best wishes

Pr **Marie-Odile Réthoré**, Honorary President

Pr **Jean-Bernard Dubois**, President of the local Organizing Committee

Dr **Daniel Satgé**, President of the Scientific Committee

Mr **Olivier Claverie**, for the Cancéropôle Grand Sud Ouest
